DETAILED ACTION

Response to Amendment

Applicant's arguments filed 3/7/05 have been fully considered but they are not persuasive. The Amendment submitted by Applicant does not overcome the rejection made by Examiner in the last office action.

Claims 1-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over GB 1203546.

The rejection is maintained for the reasons as stated in the last Office action and for the following reasons:

Note that claim 1 has been amended to recite that the acidic HCl catalyst is not neutralized.

Applicant argues that the reference, GB 1203546, requires that the acidic catalyst, the HCl catalyst, which is used to promote the reaction between aniline and formaldehyde, must be neutralized at some point prior to the phosgenation of the polyamines to polyisocyanates. Said arguments have been fully considered but they are not persuasive since the reference does not disclose any strong base in the process to neutralize a strong acid, i.e. HCl. before phosgenation step. Further, the reference does disclose the product, an amine mixture containing no more than 0.05% water and 0.1% aniline in Example 2, overlapped with those in the claims. In Examples 1 and 2, the reference further disclose after phosgenation step, unreacted phosgene and by-product HCl have been removed. That means HCl has not been neutralized though out the process.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
